

DEMONSTRATION

—OF—

Crawford

Cooking-Ranges

COMMENCING TODAY

The Crawford demonstration to be held in our store commencing Thursday, including Saturday night, will prove of the greatest interest to every woman in Norwich and vicinity. The ease and convenience of baking and cooking with Crawford Ranges will be fully shown, the making of fancy pastry, etc., being in charge of a lady demonstrator.

The name Crawford is synonymous with all that is best in range construction and this demonstration will show how easy to operate and safe for use Crawford Ranges, as well as the careful construction which insures the very best results with the least consumption of fuel. Won't you pay us a visit?

FREE!
A HALF TON OF COAL

With every range purchased at our store during November, we will give, absolutely free, to anyone residing within the city limits, one-half ton of coal.

On Christmas Morning
as on any other winter day,
you can make your home
more comfortable and cheery
by using a Perfection Smoke-
less Heater.

PERFECTION
SMOKELESS
HEATERS

Its genial warmth is quickly at your service, ready for use in any emergency. You will need it as a supplementary heater when those extra cold spells come. Later you will find it just the thing for the changeable weather of early spring.

The Perfection Heater is light and easily carried. It is safe in the hands of a child—the safest and most reliable heater made. Burns finished either in blue enamel or plain steel, with nickel trimmings—an ornament to any room.

A special automatic device makes smoking impossible. All parts easily cleaned. Gallon fuel; burns nine hours. Cool handle; damper top.

Dealers everywhere; or write for descriptive circular to any agency of the

THE TARRING OF A SCHOOL TEACHER

Barber Confesses That He Decoyed Young Woman to Place Where "Tarring" Was Done—Received \$75 for His Work—Pleads Guilty in Court and Sentence is Deferred—Other Defendants to Fight.

Lincoln Center, Kas., Nov. 15.—An admission of guilt in the "tar party" case occurred today. Edward Ricord, a barber, admitted that he decoyed Miss Mary Chamberlain, a school teacher, to the point near Shady Bend where she was "tared" on Aug. 7. He went before Judge Dallas Glover and entered a plea of guilty. Sentence was suspended until after the trial of the other accused men.

Received \$75 for His Work.
Ricord had been in jail for the last three months awaiting action on appeal from a sentence in a justice's court of one year for complicity in the attack on Miss Chamberlain. He was the first man arrested in the "tar party" case. It is alleged he received \$75 for his part in the affair.

Thought She Was Going to Dance.
According to Miss Chamberlain, she accompanied Ricord on the night of the attack under the impression that he was taking her to a dance. Ricord expects sentence as the result of his confession.

Fight for Change of Venue.
Attorneys for both sides in the case spent the greater part of today collecting witnesses and evidence to be used tomorrow, when the application for a change of venue by Everett G. Clark, accused of leading the attack on Miss Chamberlain, comes up for hearing. Clark contends a prejudice exists against him in this county.

Claim Public is Prejudiced.
Many witnesses are to be called tomorrow. The defense asserts that many newspaper reports of the affair were highly colored and this tended to prejudice the public against Clark.

Clark Wealthy and Influential.
Interest in the case centers about Clark, who is wealthy and influential. Clark is quoted as having said he will spend his entire fortune if necessary to avoid imprisonment.

Jealousy and Resentment.
That jealousy and resentment of her lofty manner and popularity on the part of other women in Beverly and Shady Bend led to the tarring and flogging by men she had considered friends will be the contention of Miss Chamberlain and her attorneys.

Taught School, Clerked in Store.
Miss Chamberlain is 26 years old, and last winter taught school in Beverly, her home. When the summer vacation began she went to Shady Bend and obtained employment as a clerk in the store of L. V. Green and many friends in both towns visited her there and patronized the establishment.

STRIKERS BEGGING FOR THEIR OLD JOBS
Backbone of Garbage Collectors' Strike Is Thoroughly Broken.

New York, Nov. 15.—The first week of the garbage collectors' strike ended today. During the past three days an increasing number of strike breakers has made a great impression on accumulating garbage and with a force of nearly 5,000 men work went on without slightest interruption today. In a week the city will be normally tidy.

The authorities consider the strike to be thoroughly broken. Many of the strikers are said to be begging for their old jobs on old terms, but none will be reinstated unless recruited in the trial to be held under civil service rules Monday.

The fact that the executive organization of the teamsters left the matter of a sympathetic strike to the various local unions is believed to mean that there will be no concerted effort to act in sympathy with the striking garbage men.

GLANDERS AND FARCY WORRY NEW HAVEN
One Market Gardener Said to Have Lost Fifty Horses.

New Haven, Nov. 15.—The prevalence of glanders and farcy is so general in New Haven and vicinity that one producing company here has appealed to Governor Baldwin by letter to have him "investigate the authorities in charge of the control of diseases of domestic animals." This company claims horses which have died of glanders have been sent to it, but the carcasses and hides have been worthless.

One market gardener here is said to have lost fifty horses by the disease. The city has closed the public drinking trough.

SOUR MILK IN DENTISTRY.
Paris Doctors Find That It Destroys Infections of the Mouth.

Paris, Nov. 15.—Professor Metchnikoff's sour milk treatment has been extended with extraordinary success in the sterilization of the gums by Dr. Beathelot, of the Pasteur Institute, and Dr. Rosenthal, a Paris dentist.

A preparation of lactic acid is applied nightly to the gums, under this treatment, to form a thick cream, the mouth has been rinsed with sugar water. This arrests, after a few applications, all infection, and when this is of local origin completely cures it.

Hitherto, Dr. Rosenthal said, infections of the mouth had been extremely difficult to cure, but now they were subjugated by the voracity of the Metchnikoff sour milk germ-destriving bacteria.

Chauffeur is Released.
Hartford, Conn., Nov. 15.—W. J. Cragg, chauffeur, who was charged with the killing of seven-year-old Robert Gans on Windsor street last week was released in the police court today. He was under bonds of \$5,000. The evidence showed that he was not responsible for the accident.

NURITO
Is Guaranteed to relieve you of
Rheumatism

Solatia and Neuritis
no matter how stubborn or even chronic your case may be.

NURITO is compounded of U. S. P. (government standard) ingredients, free from opiates or narcotics; is palatable and effective.

Ask your physician or druggist for the merits of NURITO—get a box today—use it subject to a refund. "Purchase price refunded if it does not relieve."

Get relief today, or at least send for further particulars, with uncollected evidence, from a doctor or people you know—they will convince you.

ishment. Among the customers who frequently went to the Green store was a married man, and Miss Chamberlain had not been in the place more than two weeks before his wife was informed of the visit there.

Women Planned to Humiliate Her.
According to the charges of the prosecution, Miss Chamberlain immediately became the object of hatred of many women in the town and a week after the first stories began to circulate, the teacher's attorneys say, several women met and planned the humiliation of the girl.

Tared on August 7.
Miss Chamberlain, on the night of August 7, was invited to a dance. Returning, her escort had driven to the Lower Twelve Mile schoolhouse, three miles from Shady Bend, when twelve men, wearing from masks, dragged the couple to the ground and proceeded to strip Miss Chamberlain, while two masked men held her arms and legs, applied the tar and feathers. Then the mob fled, leaving the school teacher in a swoon. When she recovered she was found by her brother, Maryville Chamberlain, and he immediately went on foot the prosecution of her assailants.

TRIALS FOR TARRING OF SCHOOL TEACHER.
Nine Defendants Ask Court for Change of Venue.

Lincoln Center, Kas., Nov. 15.—Charging that county Attorney McCann had conspired to succeed in the prosecution of the tarring of Miss Mary Chamberlain, the young school teacher, Shady Bend, attorneys for the nine defendants accused of being members of the "tar party" today filed with Judge Glover an application for a change of venue, declaring that the defendants could not expect a fair trial in Lincoln, Missouri, Ottawa or Saint Charles. Arguments on the motion for change of venue will be heard tomorrow.

Miss Chamberlain, dressed in black, appeared in court today and later testified for several hours with Attorney McCann. She refused to give out any statement further than to say that at the conclusion of the criminal hearing she intends to institute suits against six of the defendants for personal damages.

Miss Chamberlain appears entirely recovered from the ordeal she underwent last August.

BEATTIE DOOMED TO DIE NEXT WEEK.
Governor Mann Declines to Interfere in His Behalf.

Richmond, Va., Nov. 15.—Governor Mann today declined to interfere in the case of Henry Clay Beattie, Jr., convicted of wife murder, and the young man's last hope of escaping the electric chair on Friday, November 24, was swept away.

A petition had been presented to the governor praying for a respite of at least thirty days for spiritual preparation.

In a signed statement Governor Mann said in part:

"I followed this case during the trial and as its horrible facts were developed regretted that a crime as cruel and malicious should have occurred within the confines of this state.

In the decision of every question which was presented to the able and impartial judge who presided at the trial he was careful to give the benefit of every reasonable doubt to the prisoner; that he did not err is shown in the refusal of the supreme court of appeals to grant a writ of error.

That Beattie is guilty of the wilful, deliberate and cruel murder of his young wife I have not the slightest doubt, nor is it unlikely that there shall be any greater relief offered him than the commutation of his sentence to imprisonment for life.

"I do not think the affidavits of Paul Beattie, printed in the papers, or any other evidence or consideration brought to my attention, sufficient for that purpose.

"To grant a respite in such a case would be to set a precedent, would be to tamper with the law and to encourage appeals to the supreme court with the sole purpose of gaining time. I believe the best way to prevent such crimes as this is to punish them adequately, certainly, speedily. Therefore the judgment of the circuit court at Chesterfield will be carried into effect without interference from me."

APPROPRIATION OF \$50,000 FOR THE McNAMARA DEFENSE.
American Federation Leaders Trying to Head Off Resolution.

Atlanta, Ga., Nov. 15.—Labor leaders are trying to prevent the introduction in the convention of the American Federation of Labor, now in session here, of a resolution framed by the California delegation appropriating \$50,000 for the defense of the McNamara brothers.

A large sum already has been raised for this purpose by private subscription, and the leaders contend, it is said, that whatever money is needed for the McNamara defense can be obtained in this manner without drawing on the funds in the name too well stocked treasury of the federation.

Two brief sessions were held by the convention today, but practically no business was transacted.

We Are Behind in Military Aviation.
Washington, Nov. 15.—Gen. James Allen, chief signal officer of the army, declares that although the United States was the first nation to recognize the aeroplane for military purposes, and carried out the first official test of that invention at Fort Myer in 1908, such phenomenal progress in this art has been made abroad that this country "has been left far behind in securing practical equipment and organization for the use of this indispensable adjunct to war."

May Discontinue Secret Caucus.
Washington, Nov. 15.—More caucuses on legislative affairs than ever were held before by a majority party in the house of representatives are predicted for the coming session of congress and one of the first important matters to be decided when democratic members reach Washington is the proposed plan to discontinue the secret caucus.

British Bark Overdue.

Don't Experiment With Old-Fashioned Hair Dyes

— I Want to Prove the Truth at My Expense —

If your hair is partly gray or faded, just tell me in a letter. Then I will send to you, without charge, a clear, pure liquid—enough for you to completely restore the original color to a lock of your hair. And so that you may apply it easily, I'll send you a special fine-toothed comb, also free.

Each application will bring back a little of the color to the gray hair in a mild, healthful manner until in a few days every gray hair will be restored to its original color—a color which will be especially pleasing to the eye because of its natural appearance.

Then to test the color, take the lock of hair and wash it in any way you wish—even curl it with a hot iron. Give it the most severe test you can, and you will find that the color is in the hair through and through, and really is lasting and natural.

But don't confuse this preparation for an instant with the troublesome "Two Bottle Dyes," or the poisonous sugar-of-lead preparations having the thick, heavy sediment. They are greasy, sticky and disgusting to use, and rub off on everything they touch.

If you will make this test on a lock of hair at my expense, you will know

that my preparation is as different from everything else of its kind as day is from night. It is revolutionary in its scientific perfection.

I am going to great expense to prove this. The sample is free, the comb is free, and even pay postage. If I knew of any fairer way to prove my claims, I would do it. This free trial offer is made for a short time only, so attend to the matter at once. Address your postal or letter to

Mary T. Goldman

Goldman Bldg., St. Paul, Minn.

Please state plainly when your hair started to turn gray and what color it was.

One full size bottle, price \$1.00, is sufficient in most cases to restore the original color. Sent prepaid on receipt of price, or Mary T. Goldman's Gray Hair Restorer can be purchased at the leading stores in all cities. (23)

GIRL STUDENTS FIGHT WITH FISTS AND HATPINS.

Hair-Pulling Also Figures in Melee at MacAlester College.

St. Paul, Minn., Nov. 15.—An hour's melee in which humping, hair-pulling and fist-fighting freely was precipitated at MacAlester college today when the freshmen appeared at chapel wearing little blue caps embroidered with "16" in bright gold.

The trouble started immediately after chapel, when the sophomores waylaid the freshmen in the halls and took away several of the caps.

For half an hour the struggle continued, and then the coaches, who had satisfied themselves with cheering, could no longer contain themselves and started another fight among themselves. It required the interference of the faculty to quell the disturbance.

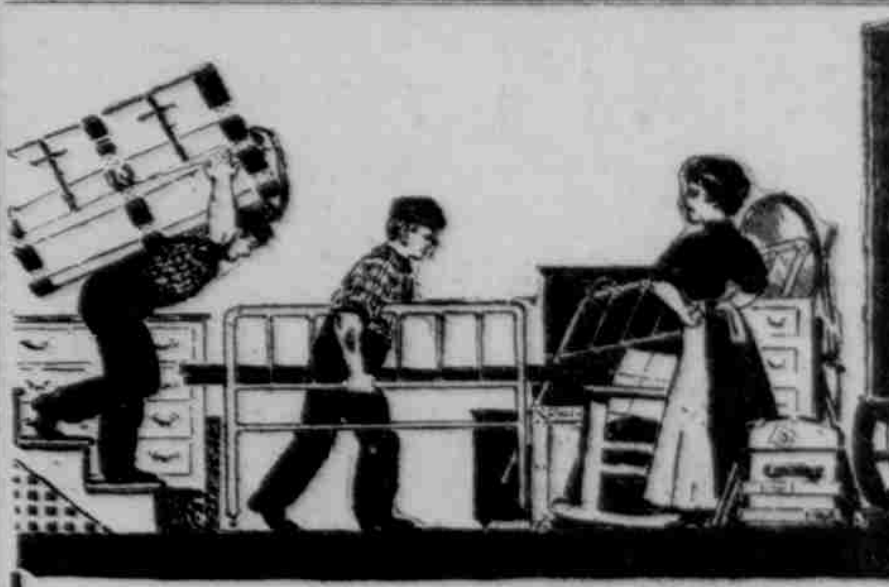

CHOKED TO DEATH IN SPRINGFIELD CAFE.

Cleveland Salesman Strangles While Eating Piece of Meat.

Springfield, Mass., Nov. 15.—S. J. Cannon of Cleveland, Ohio, aged 32 years, a salesman, choked to death while eating a piece of roast beef in a local cafe yesterday.

Bridgeport.—The jewelry firm of George W. Fairchild & Sons, incorporated, celebrated on Thursday the fifth anniversary of the foundation of the firm by George W. Fairchild.

COLDS CAUSE HEADACHE.
LAXATIVE, BROMIDE QUININE, the world's best cold and grip remedy, relieves colds, cures the flu, and drives out the germs. S. W. GROVE, 32c.

Be Sure Your New Home Is Lighted By Electricity

The best homes and apartments are wired for electric light. No other light compares with electric light in convenience and safety. Every home can now afford electric lighting because new Edison Mazda Lamps give more light than any other lamps using an equal amount of electric current.

New Edison Mazda Lamps are now strong enough for all practical purposes when given ordinary care in handling. The light giving filament is made from drawn tungsten wire that is as strong as steel.

Come in and see these lamps to-day.
